

SUMMARY

Web & UI/UX Designer with 4+ years of experience specializing in responsive layouts, scalable Figma design systems, and tokens, driving a 30% increase in active user engagement while reducing UI validation errors by 25% and accelerating feature delivery by 20% through tokenized design-to-code workflows.

EXPERIENCE

UI/UX Designer

Interactive Entertainment Studio | 10/2024 - 05/2026

- Led responsive visual hierarchy overhauls for high-traffic landing pages by employing data-driven layout iterations and micro-interactions, enhancing mobile usability and increasing active user engagement by 30%.
- Optimized complex user onboarding and core navigation flows by conducting usability testing and leveraging analytics, resolving critical user friction points and improving completion rates by 40%.
- Architected and scaled a unified Figma design system mapped directly to React component libraries and Storybook documentation via JSON design tokens, eliminating visual debt and accelerating feature delivery by 25%.

UI/UX Engineer

AIBooksBank | 07/2023 - 05/2024

- Implemented real-time field validation, inline error messages, and seamless recovery loops in React for E-Invoice workflows, reducing user drop-off and cart abandonment by 30% during transactions.
- Established end-to-end design reviews with high-fidelity Figma prototypes and reusable UI component specs, reducing technical integration friction by 20% across cross-functional engineering teams.
- Refactored and coded multi-step tax automation tools using progressive disclosure input flows, optimizing CSS/DOM structure and enhancing cross-device rendering performance by 25%.

Freelance Web Developer

Self-Employed | 09/2020 - 08/2021

- Executed end-to-end design and delivery by mapping user journeys and creating interactive Figma wireframes, resulting in a 30% increase in user engagement.

[B2B SaaS Enterprise Dashboard](#)

SKILLS

- Figma and Framer
- Wireframing and prototyping
- User experience design
- User flows and HCI design
- Mobile-first design
- Responsive web design
- Cross-browser compatibility
- Design systems and tokens
- Component-driven development
- Storybook integration
- Visual hierarchy
- Platform guidelines
- Frontend Engineering

EDUCATION

08/2023

George Brown College

Toronto, ON, Canada

Graduate Certificate

11/2022

University of Toronto Mississauga

Mississauga, ON, Canada

Honours Bachelor of Science
